

FIJIAN MAHOGANY.

Fijian Mahogany is a distinguished hardwood recognised for its enduring beauty and exceptional qualities. This species captivates with its rich, reddish-brown hues and straight, uniform grain. Naturally durable and stable, it makes it a reliable choice for a wide range of applications.

/ FEATURES /

- 

DURABILITY
Fijian Mahogany is valued for its durability. Its natural resistance to decay, rot, and insect infestation ensures longevity, even in outdoor environments with high humidity and moisture levels.
- 

STABILITY
Fijian Mahogany presents excellent stability, with minimal shrinkage, warping, or movement over time. Its uniform grain and density contribute to its stability, making it less prone to expansion and contraction in response to fluctuations in temperature and humidity.
- 

AESTHETIC
Renowned for its rich, reddish-brown colour and straight grain, Fijian Mahogany exudes natural beauty and warmth. Its smooth texture and lustrous finish enhance its aesthetic appeal, adding a touch of modern sophistication to residential and commercial projects alike.
- 

INSTALLATION
Fijian Mahogany's consistent density and workability support efficient installation, with pre-drilling recommended for optimal fixing performance.
- 

MAINTENANCE
Requires minimal maintenance to preserve its appearance and durability. Periodic application of a protective finish helps maintain its natural colour and shields it from environmental factors.
- 

SUSTAINABILITY
Sustainably sourced from responsibly managed, 100% plantation-grown forests, Fijian Mahogany is a sustainable choice for your project.

/ TECHNICAL INFORMATION /

ORIGIN	Fiji
DURABILITY CLASS	Class 2 above ground
DENSITY	650 kg
KILN-DRIED	Kiln-dried to 12-14% M.C*
FIRE-RETARDANT PROPERTIES	Approximately BAL 12.5#

The swatch provided is a general guide to the colour and grain.

*M.C = Moisture Content.

#BAL is subject to proper treatment and construction methods to comply with building regulations. Always consult a professional to confirm suitability for your specific situation based on the local BAL assessment.
