

## SPOTTED GUM.

Spotted Gum is one of the most sought-after hardwoods renowned for its distinctive grain patterns, rich colour variation, and exceptional durability. Naturally dense and resistant to termites and fire, it's a top choice for your projects.

## / FEATURES /

- 
**DURABILITY**  
 Spotted Gum is a high-density Australian hardwood with exceptional natural durability, making it ideal for projects in demanding outdoor conditions.
- 
**STABILITY**  
 Known for its strong structural performance, Spotted Gum offers good dimensional stability when properly seasoned and installed, even in exposed conditions.
- 
**AESTHETIC**  
 Featuring a distinctive mix of rich browns, greys and subtle spotting, Spotted Gum delivers a bold, contemporary appearance with natural variation.
- 
**INSTALLATION**  
 Spotted Gum's consistent density and workability support efficient installation, with pre-drilling recommended for optimal fixing performance.
- 
**MAINTENANCE**  
 Requires minimal maintenance to preserve its appearance and durability. Periodic application of a protective finish helps maintain its natural colour and shields it from environmental factors.
- 
**SUSTAINABILITY**  
 Responsibly sourced from managed Australian forests, Spotted Gum is suitable for long-life applications, supporting sustainable building outcomes.

## / TECHNICAL INFORMATION /

ORIGIN	Eastern Australia
DURABILITY	Class 1 above ground
DENSITY	950 kg
HARDNESS	11 kN
RADIAL SHRINKAGE	3.3% (green to 12% M.C*)
TANGENTIAL SHRINKAGE	6.1% (green to 12% M.C*)
FIRE-RETARDANT PROPERTIES	Approximately BAL 29#
ENVIRONMENTAL CREDENTIALS	FSC® and PEFC certified

The swatch provided is a general guide to the colour and grain.

\*M.C = Moisture Content.

#BAL is subject to proper treatment and construction methods to comply with building regulations. Always consult a professional to confirm suitability for your specific situation based on the local BAL assessment.
